

## Workday Scheduled for Saturday, March 20, 2010

Abilene Clay Sports has scheduled 31 shooting events during 2010. During the past several years, the Board of Directors has expended close to \$100,000 in capital improvements to the club. Improvements include more than 20 new traps, two new trap fields, complete reconstruction of the skeet houses, new shooting areas on the sporting clays course, a new work cart, painting the clubhouse, paving improvements, safety signage, a new target storage facility, a covered pavilion and much, much more.

As club activities have accelerated, our general maintenance and upkeep of the facilities have fallen behind. At-Large Director, Colby Caton, has agreed to lead a club workday on March 20, 2010. We are going to tackle all of the little things that detract from the club's appearance and functionality; small repairs, tree trimming, brush removal, trash removal, painting, bench repairs, shooting stand repairs, storage area cleaning and organization, and many other tasks designed to enhance the club's appearance and functionality.

The Board of Directors wants the club to present the best image possible for the 31 shooting events we are hosting this year. We need the help of volunteer members in manning the workday. Colby has promised to cook BBQ for the volunteers, and we should be able to really dress up the club if we have a large volunteer showing. Please mark your calendar and plan on being a part of the workday on March 20<sup>th</sup>. This is an opportunity for all members to contribute to the well being of the club, and we truly need your help. We are a member owned club, and we need the members' assistance in assuring the club meets its full potential. I want to thank you now for being a part of the upcoming workday.

John Clark, President  
Abilene Clay Sports
